The Institute of Valencian Studies has participated, representing the Valencian culture and language, at the annual meeting of the European Alliance of Regional Languages held the weekend of April 8 and 9 in Provence.

In the assembly different projects have been proposed to defend the different cultures represented within the Alliance, such as Béarnais, Gascon, Provençal, Nissarda, Neapolitan and Valencian.

The Institute also had a stand at the Forum of Provençal Associations where it exhibited its latest published works and a sample of typical Valencian products to make our culture known among the many forum attendees.

As usual, the stand approached some Valencians and descendants of Valencians who nowadays live the Provence and who were happy to remember their Valencia of origin in our stand.
